## FUTURE PROJECT:

We plan to include communication in English and confidence building program in the existing schools that we are operating. We also plan to start remedial or tutorial classes at Midnapore Town School initially and then extend the same to other schools. Midnapore Town School would be made the main action center for Midnapore.

We receive several prayers/appeals from other needy schools located in the neighborhood of our action centers for inclusion of educational projects we are currently conducting. However due to limitation of funds, we are unable to expand our services and include the schools who have appealed to us.

Our fund source is only Public Donation from India and Abroad. We need more inflow of funds for running the projects as well as the administrative infrastructure.

I appeal to you all to generate fund sources so that our service for the society can progress in a better way and reach out to more needy and underprivileged children.

Thanks.
