continuing projects for the benefit of underprivileged children. We are grateful to them for their supports.

In the financial year 2010-11, our organization has received Rs.30,08,009.00 from Domestic (Rs. 1,09,750.00 & Grant Rs.28,90,000.00) as donations and interest acquired from bank (Rs. 8,259.00) and spent Rs.27,41,285.68 for the various projects for the education and skill development of the underprivileged students.

We have not incurred any(??) **international (Babar Ali)** and domestic air travel during the current financial year.

FUTURE PROJECT:

We plan to start short term vocational projects for skill development and employment generation in the coming years.

We receive several prayers/appeals from other needy schools located in the neighborhood of our action centers for inclusion of educational projects we are currently conducting. However due to limitation of funds, we are unable to expand our services and include the schools who have appealed to us.

Our fund source is only Public Donation from India and Abroad. We need more inflow of funds for running the projects as well as the administrative infrastructure.

I appeal to you all to generate fund sources so that our service for the society can progress in a better way and reach out to more needy and underprivileged children.

Thanks.
